Profile Summary

As a skilled professional in the IT sector, I seek a challenging role in a reputable organization where I can leverage my technical expertise, database management skills, and management acumen to drive organizational growth. With a passion for staying ahead of emerging trends, I am committed to constantly expanding my knowledge base and staying abreast of industry advancements to remain at the forefront of my field.

Work Experience

Software Engineer

Zikomo software solutions

06/2023 - 03/2024

Contributed to various projects including Zikomo Back Office, Exclusive Deals, and FlightBit.

Utilized .NET Core and Blazor Server for the development of these projects.

Involved in both frontend and backend development.

Primarily focused on backend development, specializing in Web APIs.

Proficient in using .NET Core and Blazor Server for building robust and scalable applications.

Extensive experience in backend development with a focus on creating efficient Web APIs.

Currently assigned full-time to the FlightBit project.

Sole developer responsible for the entire project.

Fullstack Developer

AvenData GmbH

11/2022 - 05/2023

Reviewed code, debugged problems, and corrected issues.

Coordinated efficient large-scale software deployments.

Provided software application engineering and maintenance for the development lifecycle.

Developed functional databases, applications and servers to support websites on the back end.

Analyzed existing software implementations to identify areas requiring improvement.

Managed development milestones from initial steps through final delivery.

Developed next-generation integration platform for internal applications.

Software Engineer

OptByte Software Solutions Pvt. Ltd

02/2022 - 11/2022

Working on various data fixes and code changes

Converting business requirements into technical solutions

Collaborating with team members

Designed, Developed, modified, debugged, and tested web APIs Wrote SQL statements, Views, and Scripts

Creating high-performing, responsive, and interactive web applications

Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development

Revised, modularized, and updated old code bases to modern development standards, reducing operating costs and improving functionality

Gathered and defined customer requirements to develop clear specifications for

project plans

Planned and developed interfaces that simplified overall management and offered ease of use.
