Professional Summary

Full-stack software developer with over 2 years of experience in .NET Core, Blazor, Angular, and RESTful APIs. Skilled in designing, developing, and deploying responsive web applications and back-end solutions. Strong focus on backend architecture, transforming business needs into technical solutions. Hands-on experience with database management using SQL Server, PostgreSQL, and MySQL.

Work Experience

Software Engineer | Zikomo Software Solutions (06/2023 - Present)

- Lead developer on FlightBit, contributing to full-stack development using .NET Core and Blazor.
- Responsible for building efficient APIs and ensuring project scalability.

Fullstack Developer | AvenData GmbH (11/2022 - 05/2023)

- Worked on backend systems for websites, enhancing application performance.
- Managed and debugged large-scale software deployments.

Software Engineer | OptByte Software Solutions (02/2022 - 11/2022)

- Developed, debugged, and optimized REST APIs and web applications.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
